

AUTOMOTIVE

We stock a huge range of bearings for Cars, Trucks, Motor bikes etc. Bearing applications include: Wheel bearings, Differential, Transmission, Spigot, Alternator and starter motor etc.

ORDER ENQUIRY

BALL & ROLLER

Ball bearings, are probably the most common type of bearing. They are found in everything from inline skates to hard drives. These bearings can handle both radial and thrust loads, and are usually found in applications where the load is relatively small.

ORDER ENQUIRY

PILLOW BLOCKS

Pillow block bearings are used to provide support for a rotating shaft with the mounting surface on a parallel line with the axis of the shaft. We offer a wide variety of these.

ORDER ENQUIRY

LINEAR BEARINGS & SHAFTS

Continuous or intermittent support where loads require long shafts and high rigidity, Linear Bearings come in handy. We have the largest and the most comprehensive range of linear sets, hardened shafting, supported shafting, ball bushings, ceramic and self lube bushings.

ORDER ENQUIRY

NEEDLE ROLLER

Needle roller bearings use very long and thin cylinders. Often the ends of the rollers taper to points, and these are used to keep the rollers captive, or they may be hemispherical and not captive but held by the shaft itself or a similar arrangement.

ORDER ENQUIRY

TAPERED ROLLER

Tapered roller bearings are generally of separable design and have tapered cone and cup raceway between which tapered roller are arranged, their design makes tapered roller bearings particularly suitable for carrying combined load.

ORDER ENQUIRY

CAM FOLLOWERS

Cam followers are bearings with a stud incorporating needle rollers in a thick walled Outer ring. They are designed so that the outer ring runs directly on the mating track surface. Commonly used in robotics, machine tools, electronic devices, earthmoving etc.

ORDER ENQUIRY

STAINLESS STEEL

Stainless Steel bearings work well in environments where moisture is present. They are commonly used in food and beverage industries as well as in medical equipment.

ORDER ENQUIRY

ROD ENDS

Rod ends are manufactured utilizing two main construction styles, two-piece (body and ball), or three-piece (body, ball, and race).

ORDER ENQUIRY

BRONZE BAR & BUSHES

Bronze Bar bearings are available in various sizes from stock. Special made to order finished machine parts and bronze wear plates are also available.

ORDER ENQUIRY

O RINGS, CORD, KITS

A wide variety of O-rings and cord, in various material types and sizes for many applications. Supplied individually as well as in kit form.
